

IFAT Africa: the leading platform for environmental technologies in sub-Saharan Africa

July 09-11, 2019
Johannesburg, South Africa

Africa's leading trade fair for water, sewage, refuse and recycling

IFAT
Africa

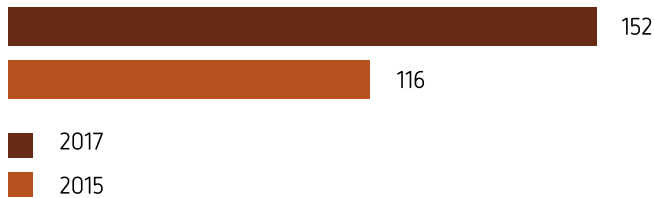

Experience the leading environmental trade fair in sub-Saharan Africa.

Your gateway to success

IFAT Africa became the hub for environmental technologies in sub-Saharan Africa. Over 1,800 visitors gathered over three days at the Johannesburg Expo Centre from September 12-14, 2017.

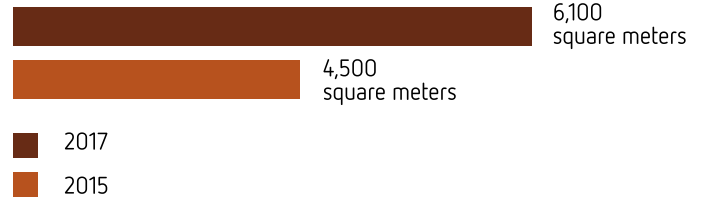

Exhibitor Development

Number of exhibitors

Increase of floor space

Floor space

Key reasons to exhibit at IFAT Africa 2019

Africa's leading trade fair for water, sewage, refuse and recycling

6,000 square meters of exhibition space, 152 exhibitors and over 1,800 trade visitors

Gathering place for key players in the environmental technologies space

The entire sector comes together at IFAT Africa – trade professionals from South Africa and around the world who are engaged in water, sewage, refuse and recycling. This is the perfect place to expand your network and grow your business in the African market

Comprehensive industry product range

Extensive product categories are covered at IFAT Africa: water extraction and treatment, sewage treatment, water distribution and sewers, refuse disposal and recycling, generating energy from waste materials, energy efficiency technologies, decontamination of old sites/soil treatment, air pollution control and noise reduction, measuring, control and laboratory technology, environment management and services and science, research and technology transfer

High-calibre supporting program

See industry experts, trade associations, business partners and exhibitors presenting the latest product developments, trends and market analyses in exciting workshops, panel discussions, speakers corner and live demonstrations

Meeting hub for decision-makers

Meet the industry's decision-makers to present and sell your products and solutions directly to purchasing officials of national and local authorities, and to a wide range of industrial and commercial users

Three shows in one venue

The leading industry trade fairs: analytica Lab Africa, food and drink technology Africa and IFAT Africa, present the most recent developments in the area of analysis, as well as food, beverage and environmental technologies, at the new venue in Gallagher Convention Centre. More than 6,000 visitors are expected in a 12,000 square meter exhibition space

- Science, research, technology transfer

Exhibitor satisfaction

Exhibitor statements

Hennie Pretorius, Endress+Hauser

"IFAT Africa was a quality show that attracted quality contacts from both South Africa and the rest of Africa. We took part in the premiere in 2015 and are pleased about how the trade fair has grown. We will definitely be there again in 2019."

Andreas Schweitzer, Hermann Sewerin GmbH

"IFAT Africa was again very successful for us. High-ranking delegations from South Africa, Zambia, Mozambique and Ghana provided us with access to markets in Southern Africa. We were able to forge valuable contacts with real decision-makers."

Christa Venter, COO of the Municipal Waste Management service provider, Pikitup Johannesburg (SOC) Ltd

"We absolutely need to find sustainable alternatives to conventional landfills and drive waste separation and recycling. Key to this is also changing the behaviour of our citizens through education and awareness. IFAT Africa has given us a lot of impetus for that."

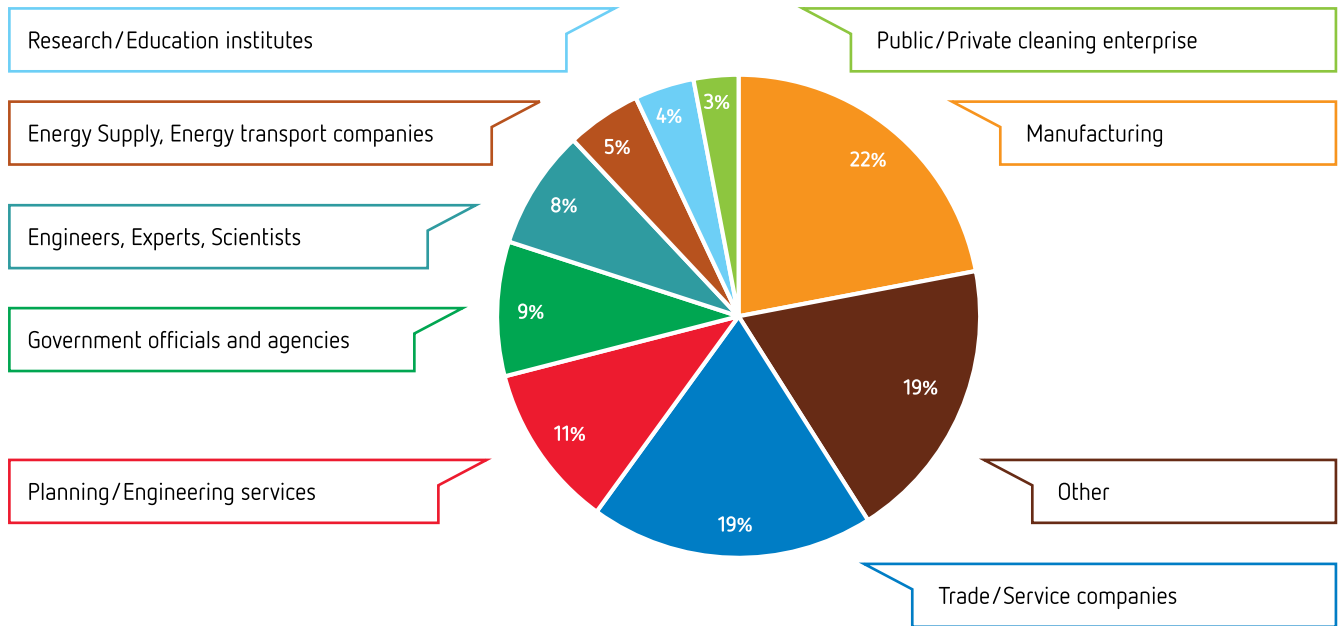

Tushar Sheel, Business Development, WIL0 SE

"IFAT Africa is an exciting trade fair for WIL0. The visitors were qualified consultants, ministers and corporations, all looking for technology partners to do business with."

VISITOR PROFILE

The ideal platform for great networking opportunities.

Visitor ratings

Presence of international exhibitors	95%
Would recommend IFAT Africa to others	86%
Completeness of product range	83%
Presence of market leaders	80%
Leading trade fair in South Africa	80%

Innovation, knowledge transfer and networking for a sustainable future.

One of the highlights at IFAT Africa is the high-calibre forum program addressing various topics from water, sewage, refuse and recycling sectors. It involves local and international speakers from the industry, ministries, associations and the scientific profession.

The **technical sessions** aim to bring together and inspire solution providers, practitioners and decision-makers to share knowledge and experience that relates to proven and innovative environmental technologies in the water and waste sectors.

In addition, the supporting program also focuses on the topics of capacity building and career development and offers valuable opportunities for business networking. Exhibitors have the opportunity to present their latest products in the speakers corner.

Exhibitors at IFAT Africa will have the opportunity to engage with local and international visitors. Exhibitors will be showcasing their latest innovations, products and projects through case studies and panel discussions presented in the **speakers corner**.

Young Professionals Forum aims to help young academics to forge valuable contacts and make it easier for them to launch their career in the environmental sector.
