for beverage, dairy  
and liquid food industry

**October 23-25, 2024**

Bombay Exhibition Centre (BEC), Mumbai

[drinktechnology-india.com](https://drinktechnology-india.com)

powered by **drinktec**

# India's leading beverage and liquid food B2B platform

drink technology India is the country's most eminent and vibrant marketplace that brings promising new trends in technology for manufacturing, bottling, packaging, and processing for soft drinks, water, alcobev, dairy, liquid foods, oils and fats. One of the largest events in its segment in India, the show has grown consistently over the years, thus cementing its position as a catalyst in driving business growth.

The upcoming edition of drink technology India 2024 continues to be one of the major hubs for global sourcing, bringing together the beverage, dairy, and liquid food communities under one roof. This edition promises to be even bigger and better, solidifying its position as the premier destination for Indian suppliers and buyers to connect, transact, and define the future.

The networking opportunities at drink technology India are second to none. They enable perfect conditions to unlock new business relationships and further existing ones. drink technology India, along with its face-to-face interactions and specially curated conferences, creates a robust environment for the exhibitors and visitors to get acquainted with new market trends and interact with like-minded individuals.

## Satisfied Exhibitors

would recommend other companies to participate

were satisfied with overall drink technology India

built new business relationships

## Buyer Testimonial

“ The kind of response that drink technology India has received is superb. We understand there more than 250 companies exhibiting showing packaging, processing and ingredients. Forums like these help product developers, packaging developers to understand latest technologies and apply them in new product development. ”

**Mr. Prashant Bhat,**  
Chief R and D officer, Mother Dairy
