INDIA 2026

**MASTERSTROKE
TO SUCCESS**

FROM THE CEO'S DESK

At Messe Muenchen India, innovation has always been our hallmark.

Through our flagship trade fairs electronica India and productronica India, we bring together global electronics manufacturers, visionaries and innovators from the world over, to shape the future of technology. Hosted annually in Delhi and Bengaluru, these platforms have become synonymous with excellence and progress in the electronics ecosystem.

Today, India stands at the cusp of a manufacturing revolution fast emerging as the global heartland of electronics. Our recent edition in Bengaluru reflected this momentum, serving as a strategic meeting point for 50,000+ stakeholders in the manufacturing value chain. Where everything from design and components to assembly, automation, embedded systems and quality assurance converged at one location.

Building on this success, we are now ready to scale new heights. From 2026 Onwards, the event will be held twice a year. A bold step forward driven by industry trust, enthusiasm and growth. This milestone would not have been possible without the unwavering support of our partners, exhibitors and stakeholders.

Together, we've turned eighteen successful editions into a legacy. The journey ahead promises to be even more extraordinary. Join us as the game changes - electronica India and productronica India sharper, smarter and more dynamic than ever before. Let's continue to power the future of electronics together.

Bhupinder Singh

President IMEA, Messe München and CEO, Messe München India

WE

**KNOW

IT OUT OF THE PARK

When innovation meets ambition, the results are spectacular.

electronica India and productronica India 2025 proved exactly that.

A global stage where technology leaders, visionaries and changemakers came together.

From groundbreaking innovations to game-changing collaborations, the event reflected India's bold vision for the future of electronics.

The numbers reflect the scale the success, and the unstoppable momentum of an industry on the rise.

WELCOME

THE DEFINING VOICES COME TOGETHER

e-Mobility Conference

Experts discuss the future of electric mobility in India, covering innovation, EV technology, battery development and charging

CEO Forum

An exclusive gathering of leaders from the electronics and manufacturing sectors, offering insights into opportunities and challenges driving industry

India Semiconductor Conclave

Brings together global leaders and policymakers to advance India's design-led chip-making ambitions on the world stage.

eFuture Conference

A forward-thinking platform spotlighting the latest in electronics and digital innovation, featuring sessions on AI, IoT, automation and

India PCB Tech conference

Focuses on the thriving PCB industry, exploring advancements in printed circuit board technologies, market trends and opportunities.

Factory of the Future

Explores the smart factory revolution transforming electronics manufacturing through industrial automation and digital integration.

CONVERSATIONS THAT LEAD TO REAL BUSINESS

Innovation Forum

Presents cutting-edge innovations that address real-world challenges faced by buyers across industries such as electronics, manufacturing, services, automotive, telecom, healthcare, defence and more. The lineup features impactful presentations from India, Japan and Germany

Buyer Seller Forum

A structured programme where buyers pre-select the companies and products they wish to engage with. In the 2025 edition, the event hosted buyers from Honda, Pricol, BHEL, BEL, Lava, Foxconn, and more, facilitating over 2,000 meetings.

electronica Xchange Podcast

A platform where industry leaders share insights, perspectives and emerging trends while addressing key challenges in the sector. Featuring eighteen engaging podcasts with expert guests, making each episode both informative and entertaining.

MMI Executive Club Lounge

An invite-only VVIP lounge designed for buyers and exhibitors to connect and explore business opportunities beyond their stalls. The first edition saw participation from over 200 distinguished dignitaries.

WINNING

The word "WINNING" is rendered in a large, bold, sans-serif font. Each letter is filled with a detailed image of a glowing electronic circuit board, with various components and traces visible. The letters have a slight 3D effect with a dark shadow on the right side. The background of the entire page is white with a faint, light blue circuit board pattern that recedes into the distance.

VOICE OF THE INDUSTRY'S

POWER

PLAYERS

Visitors flocked to the Bengaluru International Exhibition Centre for the 2025 edition . It was a grand spectacle that attracted everyone from global CEOs to emerging leaders. With national and international guests coming together, the event truly embodied a global spirit.

Mr. Atul Lall,

**Vice Chairman and
Managing Director,
Dixon Technologies**

The event serves as a leading platform that brings together senior industry leaders, visionaries, and key stakeholders to engage in insightful deliberations and thought-provoking debates.

By promoting an intellectually stimulating environment, it encourages the exchange of ideas, innovations, and strategies that are critical to addressing current industry challenges and opportunities.

**Mr. Gurdeep
Singh**

**General Manager
Strategic Sourcing
Group, Samsung India
Electronics Pvt Ltd**

"This exhibition brilliantly showcased the immense potential for localized electronics component sourcing in India. We were particularly impressed with the focus on nurturing growing Indian manufacturing capabilities and the opportunity to identify several promising new sourcing partners. A truly invaluable experience for anyone in the industry!"

**Mr. Prakash
Palanisamy**

**DGM
Group Corporate
Electronics Sourcing,
Spark Minda Group**

"We attend shows globally, but the scale and focus here in Bengaluru this year were truly impressive. The international pavilions provided direct access to component suppliers we would typically need to visit multiple regional shows to engage with."

Mr. Sushil Kumar

**General Manager
Procurement and
Sourcing,
Jio Platform Limited.**

"What stood out was the access to both established names and emerging startups under one roof. This juxtaposition is invaluable-we were able to benchmark mature solutions against emerging supply chain scenarios and witness India emerging as a key global manufacturing destination."

IN THE WORDS OF OUR PARTNER ASSOCIATIONS

Rajoo Goel,

Secretary General of the Electronic Industries

What excites us is the balance between today's opportunities and tomorrow's vision. With pioneering start-ups, global pavilions, semiconductor design focus, extensive representation of components and materials value chain as well as buyers and sellers converging, these trade fairs reflect the fast maturity of our industry. ELCINA is proud to partner in building an ecosystem where policy, innovation, and collaboration come together-and where India's electronics manufacturing is stepping into genuine global leadership.

Ajai Chowdhary,

HCL Founder,

It's very essential as a country to move from services to a product nation. I have been a great proponent of designing and making in India. I think shows like electronica and productronica will open the eyes of start-ups and other companies to look at how to make and design in India and take it to the world. With the support of MMI their ideas can travel the world, because MMI has global connections.

Pankaj Mohindroo,

Chairman, ICEA

The event has truly elevated its scale and set new benchmarks, reflecting a deep understanding of the industry's evolving needs and challenges. From the exceptional quality of exhibitors to the well-curated sessions and networking opportunities, every aspect has been meticulously designed to drive meaningful connections and business growth. I commend Messe Muenchen India for their unwavering commitment to delivering such an outstanding, impactful, and forward-looking event that brings immense value to all stakeholders.

FOUR PILLARS THAT MAKE US INDUSTRY LEADERS

Endorsed by the icons

From the Hon'ble Prime Minister of India to leading CEOs and young innovators, electronica India and productronica India has the nation's and industry's trust.

Where real business happens

With 2000+ B2B meetings, this is where global decision-makers meet face-to-face, exchange ideas and turn conversations into collaborations.

A hub of innovation

From cutting-edge innovation forums to start-up pavilions and expert-led talks, it's where the future of electronics is imagined, discussed and designed.

Bringing the ecosystem together

The entire electronics value chain from components to systems converges here. One platform. One purpose. Real partnerships.

Real impact.

IT'S A DOUBLE

CEN TURRY

FROM 2026

Inspired by the phenomenal success of electronica India and productronica India, we're ready to raise the bar even higher.

Starting 2026, get ready for two power-packed shows every year.

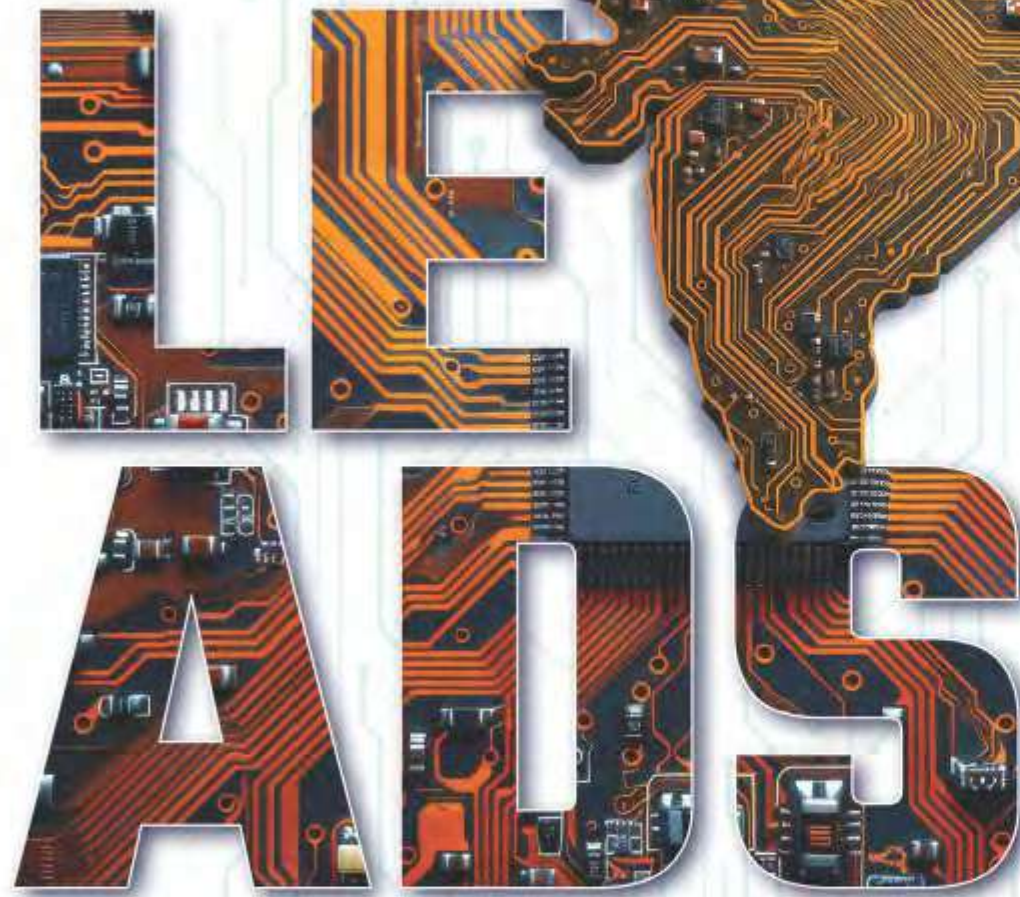

It's twice the opportunities, twice the connections and twice the impact.

With over 80% of visitors coming from the host cities, the events promise unmatched regional reach and business potential.

Reach India's complete electronics ecosystem in one business cycle

A NEW

BALL GAME

FROM 2026.

Come with open minds to participate, pitch and seal the deal. Together, let's make real business happen with the right support.

With State Government partnerships, dedicated state focus zones and expanded international pavilions, the stage is all set for next-level collaboration. Emerging segments in electronics will find their spotlight to showcase innovation, forge alliances and connect with global buyers.

Get ready for bigger partnerships, deeper networks and wider global exposure.

The next leap in electronics begins here.

Join us!

We look forward to your participation and partnership

at the 2026 events in Delhi and Bengaluru.

Together, let us leverage technology and collective

vision to shape a future defined by innovation,

progress and lasting impact.
