## Postponement Announcement

Dear Exhibitors, Visitors and Partners:

Recently, Shanghai has issued a series of administrative measures about treating Covid-19 as a Category B disease. While gradually relaxing restrictions and optimizing procedures in Shanghai, Shanghai is also trying to effectively control possible risks following such adjustments. Meanwhile, Covid-19 prevention and control in China is entering a new phase and facing new tasks and uncertainties.

In order to ensure optimal exhibition results for the exhibitors, visitors and industry professionals, and to present a safer and more valuable event for the industry, after careful consideration, **analytica China 2022 and labtech China Congress 2022**, which were originally scheduled to be held on March 1-3, 2023 at Shanghai New International Expo Centre, will be postponed again to **July 11-13, 2023**. **analytica China 2022 and labtech China Congress 2022** will be held concurrently with **electronica China, LASER World of PHOTONICS CHINA, and Vision China (Shanghai) at National Exhibition and Convention Center (NECC)** in Shanghai, Hongqiao.

We are committed to serving the analysis, diagnosis, laboratory technology, and biochemical technology industries in China as well as Asia on the highest quality level possible. Beyond this we want to support our exhibitors in expanding business in new markets. For the upcoming **analytica China and labtech China Congress**, we build an integrated platform that includes the electronics, laser, optics, photonics, and machine vision industries in one location. This will lead **analytica China and labtech China Congress** to further successes, strengthen the event as well as the importance of the industry.

At the same time, as the epidemic prevention measures are gradually optimized, we are expecting a long-awaited gathering of closer and safer interaction and exchange. We also expect more valuable matchmaking and trade consultations through such professional platforms.

With additional time for an adequate preparation of the trade show, we look forward to our meeting in July to share technological innovation and future market prospects. Kindly accept our sincere apology for any inconvenience caused by this change, but we believe it is a necessary step to ensure your safety and the success of the exhibition. Thank you all for your continuous understanding and support. We do hope that you will receive this information in time, and you are able to adjust accordingly. If you have any question, please also feel free to contact us.

We wish you all the best and good health!

Yours sincerely,

Messe Muenchen Shanghai Co., Ltd.
