## Postponement Announcement

Dear Exhibitors, Visitors and Partners,

Considering the current epidemic situation of Shanghai Municipality is still complex and severe and in order to continue to implement the overall strategy of "preventing imported cases and resurgence of indigenous outbreak" and overall policy of "dynamic clearing", and to strictly follow all the epidemic control measures of Shanghai Municipality, we regret to announce that **electronica China 2022** will be postponed to April 13-15, 2023 at Shanghai New International Expo Center.

At this critical moment, it's our priority to protect health, safety and success of our exhibitors, visitors and partners. We've been serving the electronics and photonics industry in China since 2002 and gone through difficulties and harvest times together. We encourage everyone to stay confident and optimistic for the bright future of China and ourselves as well. From July of 2022, we will continue to serve the exhibitors and industry via different kinds of activities including online program.

**electronica South China 2022**, as a member exhibition of South China International Advanced Electronics, Automation and Laser Expo (LEAP Expo) will be held on Oct 27-29, 2022 at Shenzhen World Exhibition & Convention Center as scheduled, which will be the main platform we provide to the electronics industry in 2022.

Kindly accept our sincere apology for any inconvenience caused by this change, but your safety is our top concern. Thank you all for your continuous support and we do hope that you will receive this information in time and you are able to make adjustments accordingly. If you have any question, please also feel free to contact us.

We wish you all the best and good health!

Yours sincerely,

Messe Muenchen Shanghai Co., Ltd.

June 10<sup>th</sup>, 2022
